Legislative Director –

- This past weekend we had the opportunity to learn more about the legislative aspect of CNSA and in turn the NSNA. Each CNSA chapter is given the opportunity to present a resolution, which is then voted on by the house of delegates to present to a national committee.
- A resolution is a written main motion on a subject of great importance expressed in formal wording.
- Within NSNA, it serves to establish the association's position on matters of national scope and significance affecting nursing students, nursing, and the health needs of the public.
- In the future, I will be sending out examples and resources on how to write a resolution for those that are interested.

- <https://www.cnsa.org/resolutions>
- The main takeaway from this convention was how being a part of CNSA is preparation for membership of professional organizations such as the Association of Women's Health, Obstetric and Neonatal Nursing, Association of Pediatric Oncology Nurses, and the Academy of Medical-Surgical nurses.

Community Health Director –

- On October 22nd from 10 am to 3pm, we will be hosting a blood screening pressure event on campus at the eastside lawn area by the Satellite Student

Union. You will need to bring your own stethoscope and blood pressure cuff to this event but if you need to loan a blood pressure cuff then make sure to visit Tara so that she can let you borrow one for this event. This is a great way to practice taking blood pressures and a great way to gain patient interaction, especially with Spanish speaking patients.

Social Media Director –

- We are aware that each cohort has a handful of ESL (or English as 2nd Language) students, so we'd like to accurately represent this sub-population of our nursing students. I'm putting a survey in the chat just to gauge personal experiences, as well as if you've noticed classmates with language barrier issues during class!
 - Poll: Underrepresentation of English as 2nd Language Students
